Washington, D.C. 20555-0001

**Paducah Gaseous Diffusion Plant (PGDP)  
Docket No. 70-7001, Certificate No. GDP-1  
Request for Approval of Facility Classified Mailing Address Change**

Dear Ms. Holahan:

Pursuant to 10 CFR 95.19(a), the United States Enrichment Corporation requests the U.S. Nuclear Regulatory Commission (NRC) approval of a change to the Classified Mailing Address for PGDP. The new classified mailing address that follows will be in a Post Office in closer proximity to PGDP.

United States Enrichment Corporation  
Paducah Gaseous Diffusion Plant  
ATTN: Document Accountability Section  
P.O. Box 130  
Kevil, KY 42053

In addition, the following address change for unclassified mail to a rural mailbox at the facility location will also be made; however, this change does not require NRC approval.

United States Enrichment Corporation  
Paducah Gaseous Diffusion Plant  
5600 Hobbs Road  
Kevil, KY 42053

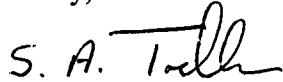

This change request will require conforming changes to the Facility Data and Approval Record (FDAR) and the Facility Address Report (FAR) Number 3003-NRC-12-001. Conforming changes to the FDAR will include Blocks 9, 11, and 13 of the FDAR form. Conforming changes to the FAR form will include the Unclassified Mailing Address, the Facility Location Address, and the classified mailing address.

For your information, completed and forthcoming management changes at PGDP will affect the Key Security Personnel Block 21 of the FDAR and the Facility Address Report. These changes will be provided under separate cover.

Ms. Patricia K. Holahan
