**Subject:** Termination of license 21-09119-02

Dear Ms Pelkie –

Northern Michigan University holds license 21-09119-02, which was renewed on August 15, 2007 by Amendment # 19. In accordance with 10 CFR 30.36(b), I am requesting termination of our license. We are no longer in possession of any of the radioactive materials covered by the license and do not anticipate any activities requiring the license in the future.

Please let me know what additional steps are required for license termination. In addition, please let me know if a printed letter is required for this notification or if this email is sufficient.
