MEMORANDUM TO: Biweekly Notice Coordinator

FROM: Alan B. Wang, Project Manager **/RA/**  
Plant Licensing IV-2 and Decommissioning  
Transition Branch  
Division of Operating Reactor Licensing  
Office of Nuclear Reactor Regulation

SUBJECT: REQUEST FOR PUBLICATION IN BIWEEKLY FR NOTICE - NOTICE  
OF ISSUANCE OF AMENDMENT TO FACILITY OPERATING LICENSE  
(TAC NO. MF0658)

Entergy Gulf States Louisiana, LLC, and Entergy Operations, Inc., Docket No. 50-458, River  
Bend Station, Unit 1, West Feliciana Parish, Louisiana

Date of amendment request: February 7, 2013, as supplemented by letter dated January 16,  
2014.

Brief description of amendment: The amendment revised the River Bend Station, Unit 1 (RBS) Technical Specification (TS) 3.8.4, "DC [Direct Current] Sources – Operating," Surveillance Requirements 3.8.4.2 and 3.8.4.5. The change is the result of the licensee's determination that the total battery capacity would possibly be insufficient to supply the required load to the DC system if each of the battery-to-battery connections were to reach the individual resistance limits. The changes to the Surveillance Requirements added new acceptance criteria to address the possible non-conservative conditions when the battery connection resistances are at maximum TS values.

Date of issuance: June 18, 2014

Effective date: As of the date of issuance and shall be implemented 60 days from the date of issuance.

Amendment No.: 181. A publicly-available version is in ADAMS under Accession No. ML14136A008; documents related to this amendment are listed in the Safety Evaluation enclosed with the amendment.

Facility Operating License No. NPF-47: The amendment revised the Facility Operating License and Technical Specifications.

Date of initial notice in *Federal Register*: April 30, 2013 (78 FR 25312). The supplemental letter dated January 16, 2014, provided additional information that clarified the application, did not expand the scope of the application as originally noticed, and did not change the staff's original proposed no significant hazards consideration determination as published in the *Federal Register*.

The Commission's related evaluation of the amendment is contained in a Safety Evaluation dated June 18, 2014.

No significant hazards consideration comments received: No.
