Subject: NRC request for additional information - License amendment for Preston Memorial Hospital (583554)
Date: Wednesday, May 07, 2014 10:36:00 AM

Licensee(s): Preston Memorial Hospital
License No.: 47-16720-01
Docket No.: 030-11644
Control No.: 583554

Dear Ms. Lockwood,

In order to continue our review of your letter dated March 5, 2014, we need the following additional information:

1. Your request states that effective February 27, 2014, Preston Memorial Hospital became affiliated with Monongalia Health Systems. Please clarify if there has been a change or transfer of control.

With regards to changes of control (transferor and/or transferee, as appropriate):

- a. Provide a complete description of the transaction (transfer of stocks or assets, or merger; is this a direct sale of all assets, equipment, and sealed sources?). Indicate whether the name has changed and include the new name. Include the name and telephone number of a licensee contact who NRC may contact if more information is needed.
- b. Describe any changes in personnel or duties that relate to the licensed program. Include training and experience for new personnel.
- c. Describe any changes in the organization, location, facilities, equipment or procedures that relate to the licensed program.
- d. Describe the status of the surveillance program (surveys, wipe tests, quality control) at the present time and the expected status at the time that control is to be transferred.
- e. Confirm that all records concerning the safe and effective decommissioning of the facility will be transferred to the transferee or to NRC, as appropriate. These records include documentation of surveys of ambient radiation levels and fixed and/or removable contamination, including methods and sensitivity.
- f. Confirm that the transferee will abide by all constraints, conditions, requirements and commitments of the transferor or that the transferee will submit a complete description of the proposed licensed program.

Submit the above requested information signed by senior management from both Preston Memorial Hospital and Monongalia Health Systems.

2. Please confirm that Monongalia Health Systems does not perform any activities that fall under any other active NRC licenses.

You may fax your reply to my attention to 610-337-5269. Please reference Mail Control No. 583554 in your response.

Please send a return e-mail to confirm that you received this message.

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

Thank you for your assistance,

Maryann Abogunde
