INITIAL RESPONSE TO IE BULLETIN 79-12B

Dear Mr. O'Reilly:

Your bulletin of March 19, 1979, requested information concerning possible atypical weld material in reactor pressure vessel welds. We have contracted with our NSSS vendor to provide the requested information, but he has informed us that your requested schedule cannot be met. Based upon the information we now have available, we believe that we can supply the data to you by August 1, 1979. If it proves to be possible to improve on this schedule, we will do so.

Yours very truly,

E. E. Utley
Executive Vice President
Power Supply
