LICENSE NO. DPR-23
SCHEDULE FOR RESPONSE TO IE BULLETIN 79-01B (90 DAY)

Dear Mr. O'Reilly:

The ninety-day response to IE Bulletin 79-01B is due on April 21, 1980. The scope of the work involved in this effort and the additional information required from manufacturers make it impossible for us to meet your original schedule. The commitments we have been able to obtain from vendors for manufacturing and equipment test data indicate that a delay of sixty days is required. Therefore, based upon our current information, Carolina Power & Light Company commits to submit the ninety-day report to you on or before June 20, 1980.

Yours very truly,

B. J. Furr
Vice President
Nuclear Operations
