IMPLEMENTATION OF 10 CFR 20

Gentlemen:

Pursuant to 10 CFR 20.1008, Carolina Power & Light Company (CP&L) is making notification of early implementation of 10 CFR 20.1001 through 10 CFR 20.2401 and associated appendices. Implementation of 10 CFR 20.1001 through 10 CFR 20.2401 will occur on January 1, 1993.

Carolina Power & Light Company understands that demonstration of compliance with the limits in 40 CFR 190 and with the design objectives of Appendix I to 10 CFR 50 will be deemed to demonstrate compliance with the radiation dose limits for members of the public. Carolina Power & Light Company further understands that instantaneous release rate limits for airborne release in Technical Specifications which are designed to meet Appendix I requirements will not need to be changed. However, instantaneous release rates for liquid effluents, to the extent that they directly reference 10 CFR 20, Appendix B concentration values, will need to be changed. The generic guidance being developed by the NRC staff will be used as a model for these changes.

Should you have any questions regarding this matter, please contact Mr. D. C. McCarthy at (919) 546-6901.

Yours very truly,

R. B. Starkey, Jr.
