101 Marietta Street N.W. Suite 2900
Atlanta, Georgia 30323-0199

RE: HB Robinson SALP Meeting
March 25, 1997

Dear Mr. Reyes,

This letter is in reference to the 25 Mar 97 SALP results meeting. I regret that prior commitments will not allow me to attend this meeting with you today. I would, however, like to relay the following information to you for your consideration. HB Robinson emergency response staff have been eager to assist me and my staff in all aspects of technical radiological state response during this review period. Without question, all inquiries by my staff have been responded to and answered efficiently by HBR staff.

Also, HB Robinson completed several rail shipments of spent fuel in 1996 without incident. HB Robinson staff made themselves available during all phases of this endeavor. They provided a briefing and transportation plans review for all responsible state/local staff before the first shipment..

We look forward to our challenging full-scale ingestion pathway exercise with HB Robinson this year. Should you need further information please contact me at (803) 896-4095.

Sincerely,

Sandra J. Threatt (RWK)

Sandra J. Threatt, Manager
Nuclear Emergency Planning
Division of Waste Assessment and Emergency Response
