SUPPLEMENTAL RESPONSE TO IE INSPECTION REPORT NO. 50-261/79-19

Dear Mr. O'Reilly:

Due to some unforeseen circumstances and the extent to which we desire to revise our E&RC and Maintenance Calibration programs, it is taking more time to accomplish the necessary revisions than was scheduled. Therefore, as discussed with Mr. Belisle and Mr. Sauer by telephone on June 13, 1980, new target dates were established for the completion of NRC open item 79-19-09. The revision to both calibration programs will be completed by July 30, 1980, and necessary revisions to the implementing procedures will be completed by December 31, 1980.

If further information is required, please notify me.

Very truly yours,

R. B. Starkey, Jr.  
General Manager
