Dear Mr. O'Reilly:

In the August 21, 1981 Response to IE Inspection Report 81-19, Carolina Power & Light Company (CP&L) stated that appropriate changes to the modification procedure would be implemented by September 30, 1981. As discussed with and agreed to by Messrs. C. Julian and S. Weise of your staff, the changes to the modification procedure will be implemented by October 31, 1981. The additional time is required as a result of a recent unscheduled steam generator outage.
