Dear Dr. Lahaniatis:

I am pleased to inform you that you passed the oral examination held on June 6-7, 2004. The American Board of Radiology grants you its Certificate in Radiation Oncology. This is a ten-year time-limited certificate. The certificate will be sent to the above address in approximately three months. Your name will appear on the certificate as shown above. If you wish your name to appear differently, please notify the Board office within thirty days.

Your name and demographic information will be included in a Directory published by The American Board of Medical Specialties. It is your responsibility to notify other local and state or national organizations if appropriate.

The American Board of Radiology began issuing ten-year time-limited certificates in Radiation Oncology in 1995. The American Board of Medical Specialties (ABMS) and all of the 24 member boards have developed programs for Maintenance of Certification (MOC). The ABR MOC Program (ABR-MOCP) is designed to assist each diplomate with a ten-year time-limited certificate in fulfilling the requirements as defined by the ABR and ABMS for maintaining certification. The concept of continuous improvement is a significant principle that underpins the ABR-MOCP.

With issuance of your certificate, the ABR automatically considers you as being in the ABR-MOCP. However, it is your responsibility to initiate the program. Please download an enrollment application from the ABR website (www.theabr.org) after January 1, 2005 in order to enroll in the ABR-MOCP as an active participant. We will keep you informed about the ABR-MOCP via various communications. Please notify us in writing immediately of any change of address. You are encouraged to use the website in the future to compile your MOC documentation.

Personally and on behalf of the Board of Trustees of The American Board of Radiology, I wish to congratulate you for this distinguished achievement. You have accomplished one of the most significant milestones in your career.

Sincerely,

R.R. Hattery
