SUBJECT: REVISION TO INITIAL TEST CUT-OFF LEVEL FOR MARIJUANA

Gentlemen:

In accordance with 10 CFR 26, Appendix A, Subpart A, Section 1.1, (2), Carolina Power & Light (CP&L) Company is making notification of a revision to CP&L's initial test cut-off level for marijuana, effective October 31, 1995. This notification is required to be made by December 30, 1995. Our current cut-off level is 100 ng/ml, as specified in Appendix A, Subpart B, Section 2.7 (e)(1). We are revising testing procedures to implement a more stringent initial test cut-off level of 50 ng/ml. The confirmatory test cut-off level for marijuana will remain 15 ng/ml.

We understand that the regulation requires reporting of test results for both levels when a licensee uses more stringent cut-off levels than those specified in Appendix A. CP&L will begin reporting data for marijuana at both levels in the first semi-annual report following implementation of the revised cut-off level.

Please contact the undersigned at (919) 546-6901 if you require additional information.

Sincerely,

for R. E. Rogan  
Manager
