SUBJECT: REVISION TO INITIAL TEST CUT-OFF LEVEL FOR MARIJUANA

Gentlemen:

Carolina Power & Light (CP&L) Company notified the NRC, by letter dated October 9, 1995, of CP&L's intent to revise its initial test cut-off level for marijuana. The testing procedures were to be revised from an initial test cut-off level of 100 ng/ml to implement a more stringent initial test cut-off level of 50 ng/ml, with an expected effective date of October 31, 1995. The confirmatory test cut-off level for marijuana remains at 15 ng/ml. The purpose of this letter is to provide the sixty day notification, in accordance with 10 CFR 26, Appendix A, Subpart A, Section 1.1 (2), that the actual implementation date for employing the more stringent test cut-off level was November 9, 1995. Accordingly, the notification is due to be provided by January 8, 1996.

CP&L will begin reporting data for marijuana at both cut-off levels in the next semi-annual report.

Please contact the undersigned at (919) 546-6901 if you require additional information.

Sincerely,

T. D. Walt  
Manager  
Plant Evaluation & Regulatory Affairs
