Docket No. 50-261

Carolina Power & Light Company  
ATTN: Mr. E. E. Utley, Vice President  
Bulk Power Supply Department  
336 Fayetteville Street  
Raleigh, North Carolina 27602

Gentlemen:

As required by Section 50.46(a)(2)(iii) of 10 CFR Part 50, the enclosed notice has been filed with the Office of the Federal Register for publication. The notice relates to your request dated June 19, 1974, for an extension of time to file the required ECCS evaluation for the H. B. Robinson Unit No. 2.

Sincerely,

Original Signed

George Lear, Chief  
Operating Reactors Branch #3  
Directorate of Licensing

UNITED STATES ATOMIC ENERGY COMMISSION

DOCKET NO. 50-261

CAROLINA POWER & LIGHT COMPANY

ACCEPTANCE CRITERIA FOR EMERGENCY  
CORE COOLING SYSTEMS FOR LIGHT  
WATER-COOLED NUCLEAR POWER REACTORS

NOTICE OF REQUEST FOR EXTENSION IN SUBMITTING EVALUATIONS

As required by 10 CFR § 50.46(a), certain licensees and applicants must submit, consistent with 10 CFR § 50.46(a)(2)(ii), an evaluation of the performance of emergency core cooling systems (ECCS) by August 5, 1974, unless an extension thereto has been obtained from the Director of Regulation pursuant to § 50.46(a)(2)(iii). As required by § 50.46(a)(2)(iii), notice is hereby given that the Director of Regulation has received and is considering a request from the Carolina Power & Light Company (the licensee) for a two-month extension of the submittal date for the H. B. Robinson Unit No. 2 ECCS evaluation. The request for extension is signed under oath and states the reasons why the evaluation will not be complete and the time necessary to complete it. The licensee is authorized by Facility Operating License No. DPR-23 to operate the H. B. Robinson Unit No. 2 located in Hartsville, Darlington County, South Carolina, at steady-state power levels up to 2200 MWt.

Carolina Power & Light Company states that the architect engineering  
several  
firm, Ebasco, will be/weeks late in providing input information for the reactor vendor to use in his evaluation model. Therefore, the results

of the evaluation from the reactor vendor will be delayed beyond the original mid-July schedule and upon receipt of the completed ECCS evaluation, Carolina Power & Light states it must review and prepare proposed Technical Specifications.

The extension may be granted upon a finding that good cause has been shown for granting of the extension. The Director of Regulation will consider and issue a determination with respect to the request for extension as required by 10 CFR § 50.46(a)(2)(iii). In that connection, the Director of Regulation invites the submission of views and comments by any interested persons. Such views and comments should be submitted in writing, addressed to the Director of Licensing, USAEC - Regulation, Washington, D. C. 20545, not later than JUL 25 1974.

A copy of the request for extension dated June 19, 1974, and related correspondence and documents are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW. Washington, D. C., and at the Hartsville Memorial Library, Home and Fifth Avenues, Hartsville, South Carolina.

Dated at Bethesda, Maryland, this 5<sup>th</sup> day of July, 1974

FOR THE ATOMIC ENERGY COMMISSION

George Lear, Chief  
Operating Reactors Branch #3  
Directorate of Licensing
