Docket No: 50-261

Carolina Power & Light Company
 ATTN: Mr. E. E. Utley, Vice President
 Bulk Power Supply
 336 Fayetteville Street
 Raleigh, North Carolina 27602

Gentlemen:

We have reviewed the revised H. B. Robinson Unit No. 2 Operator
 Requalification Program, submitted on April 7, 1975. Specifically,
 the revised program:

1. deletes the requirement for off-site simulator training,
2. incorporates in a single document commitments made in various
 correspondence leading to approval of the original program and,
3. includes some minor editorial changes to make the program easier
 to read and more compatible with the Brunswick program.

Based on our review of the revised program, we have determined that it
 continues to meet the requirements of Paragraph 50.54(i-1) of 10CFR Part 50
 and Appendix A of 10CFR Part 55.

Sincerely,

ORIGINAL SIGNED BY
 P. F. COLLINS

Paul F. Collins, Chief
 Operator Licensing Branch
 Division of Reactor Licensing
