REVISION TO QUALITY ASSURANCE PROGRAM

Dear Mr. Case:

In reference to our letters of March 30, 1977, on revisions to the QA Program at BSEP and H. B. Robinson and conversations with Mr. G. B. Zwetzig and Mr. M. Virgilio of your staff, the following clarifications are submitted for consideration:

1. Calibration tags will be attached to measuring and test equipment, and these tags will have the date for the next calibration. This tagging procedure is a part of normal plant procedures.
2. Special tools (i.e., torque wrenches, torometers, etc.) are calibrated in accordance with manufacturer's recommendations. These special tools will be calibrated to within the accuracy of manufacturer's guarantee.

If additional information is desired, please contact us.

Yours very truly,

  
E. E. Utley  
Senior Vice President
