Mr. Paul F. Collins, Chief
Operator Licensing Branch
Division of Project Management
U.S. Nuclear Regulatory Commission
7920 Norfolk Avenue
Bethesda, Maryland

SUBJECT: H. B. Robinson Unit No. 2 Operator Requalification Program

Dear Mr. Collins:

Please find enclosed the proposed revisions to the H. B. Robinson Unit No. 2 Operator Requalification Program.

The change will add a simulator training program. The evaluation from this program will be used in conjunction with the on-shift evaluation and periodic oral examination in satisfying the requirements of 10 CFR 55, Appendix A, Items 4c and 4d.

The licensed operators have been attending a simulator training program at the Harris Energy & Environmental Center in New Hill, North Carolina, for the present and previous year. The program has contributed to our operator requalification program and we desire to add it to our approved operator requalification program. This change will also clarify how the requirements of 10 CFR 55, Appendix A, Item 3C, are satisfied.

Please direct any questions you may have to Mr. Fred Lowery (803) 383-4524, Extension 282, or to the undersigned at Extension 201.

Very truly yours,

R. B. Starkey, Jr., Manager
H. B. Robinson SEG Plant
