APPENDIX R - FIRE PROTECTION  
RESPONSE TO GENERIC LETTER 83-33

Dear Mr. Varga:

Carolina Power & Light Company (CP&L) has received Generic Letter 83-33 dated October 19, 1983. In the enclosure to that letter, the NRC staff has provided its interpretations of certain provisions of 10 CFR 50 Appendix R. These interpretations were issued because staff evaluations of exemption requests determined that certain licensee interpretations were inconsistent with staff positions and because NRC plant inspections have identified what the staff considers to be non-conformances at sites where licensees indicated conformance was complete.

We are reviewing Generic Letter 83-33 for H. B. Robinson Unit No. 2 by reassessing the need for additional exemption requests in light of the clarifications provided. If, as a result of this review, we determine that additional exemptions are necessary, CP&L will file a formal request.

Please contact my staff should you have any questions regarding this information.

Yours very truly,

A. B. Cutter
