Dear Mr. Eisenhut:

It has come to our attention that paragraph 61.55(a)(7) of 10 CFR 61 contains a statement that when using the sum of the fraction rule for classification, the sum must be less than 1.0.

During a phone conversation on December 14, 1983 with Mr. P. H. Lohaus of the NRC staff, he indicated that the statement was in error and that the NRC was in the process of reissuing an updated fact sheet to correct these and other errors.

Carolina Power & Light Company in the interim intends to interpret paragraph 61.55(a)(7) as meaning that waste class will be determined by a particular column if the sum of the fractions is less than or equal to 1.0.

If you should have any questions on this subject, please contact our licensing staff.

Yours very truly,

S. R. Zimmerman
