NOTIFICATION OF ORGANIZATIONAL CHANGES

Gentlemen:

On September 24, 1990, changes in the Management organization of Robinson Nuclear Project Department were made. These changes are as follows:

Mr. R. E. Morgan has assumed the responsibilities of Assistant to the Project Manager, Robinson Nuclear Project Department. In this capacity, he provides direct supervision of the Emergency Preparedness/Security Unit, and the Plant Support Unit.

Mr. J. J. Sheppard has been reassigned from the Manager-Operations to the Plant General Manager.

Mr. R. H. Chambers has been reassigned from Supervisor-Plant Performance to the position of Manager-Operations.

Additional organizational changes have been made in the Technical Support organization to fill vacant positions created by this transition.

Accordingly, please update your records to identify Mr. J. J. Sheppard as the Plant General Manager at the H. B. Robinson Plant. All correspondence normally directed to the Plant General Manager should be addressed to Mr. Sheppard.

With regard to the position of Assistant to the Project Manager, it is recognized that this organizational structure is different than that described in Technical Specification 6.1, which states that Emergency Preparedness and Security is the responsibility of the Manager-Control and Administration. The Assistant to the Project Manager is a temporary assignment, and these responsibilities will be reassigned to the Plant General Manager at the conclusion of Mr. Morgan's transition. Also, organizational changes concerning the formation of a Corporate Nuclear Assessment Department are in progress. It is expected that these changes will have an affect of Technical Specifications 6.5.1.6 (Plant Nuclear Safety Committee), 6.5.2 (Corporate Nuclear Safety-Independent Review), and 6.5.3 (QA Services). CP&L intends to submit Technical Specification changes which appropriately describe the RNP organization once this transition period is complete and the final organization is in place.
