IMPLEMENTATION OF PROGRAMMED ENHANCEMENTS FOR  
GENERIC LETTER 88-17 (TAC NO. 69770)

Gentlemen:

Your letter dated September 24, 1990 requested that the NRC be notified "in writing when the action has actually been implemented and the modifications are determined to be operational" for Generic Letter 88-17, "Loss of Decay Heat Removal." You also requested that you be informed in writing of any significant changes in the estimated completion schedule. Hardware-related modifications and associated procedures required for operability were implemented as required by the end of Refueling Outage No. 13, March 9, 1991. Two procedures, which were not required for modification operability, are scheduled for implementation by July 1, 1991.

Questions regarding this matter may be referred to Mr. R. W. Prunty at (919) 546-7318.

Yours very truly,

S. D. Floyd
