DOCKET NO. 50-261
RESPONSE TO IE BULLETIN 81-01

Dear Mr. O'Reilly:

In response to your letter of January 27, 1981, transmitting IE Bulletin 81-01, Carolina Power & Light Company submits the following response for H. B. Robinson Steam Electric Plant:

A thorough review has determined that there are no mechanical snubbers of any manufacture in use at the Robinson Plant.

If at some future time mechanical snubbers are purchased and installed at H. B. Robinson Steam Electric Plant, Carolina Power & Light Company will develop an inspection program schedule. The manpower expended for this review and for the required report preparation was approximately eight hours.

We trust that this satisfies the requirements of IE Bulletin 81-01.

Yours very truly,

B. J. Furr
