H. B. ROBINSON STEAM ELECTRIC PLANT, UNIT NO. 2
DOCKET NO. 50-261/LICENSE NO. DPR-23
RESPONSE TO NRC BULLETIN NO. 87-02, SUPPLEMENT 2

Gentlemen:

Carolina Power & Light Company hereby submits information requested by NRC Bulletin No. 87-02, Supplement 2, "Fastener Testing to Determine Conformance with Applicable Material Specifications," dated June 10, 1988. The subject Bulletin Supplement required that licensees develop a list of names and addresses of manufacturers and suppliers from which ferrous fasteners 1/4 inch in diameter or greater have been purchased. The information is to be provided for safety-related fasteners purchased within the previous ten years and for nonsafety-related fasteners purchased within the previous five years.

As discussed with Mr. J. T. Conway (NRC) on June 22, 1988, the items covered by the term "fastener" are defined as screws, nuts, bolts, studs, and threaded-rods. Washers and other "sheet-metal" items are not included in the Bulletin scope.

Attached is a table listing the requested information for safety-related and nonsafety-related fasteners.

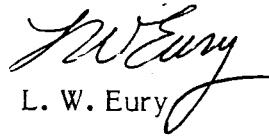

Please note that the listing of suppliers and manufacturers goes beyond the scope of the Bulletin Supplement in that: (1) the listing for safety-related fasteners begins in 1969, prior to commercial operation of H. B. Robinson Unit No. 2; (2) the listing is not limited to 1/4 inch in diameter or greater sized fasteners; and (3) the listing also identifies the suppliers and manufacturers from which safety-related off-the-shelf ferrous fasteners were purchased.
