Dear Mr. Varga:

The Department of the Interior has reviewed the draft environmental statement related to steam generator repair at H. B. Robinson Steam Electric Plant, Unit No. 2, Darlington County, South Carolina and has the following comments.

The draft statement adequately reflects the impacts on those resources within the Department's jurisdiction and expertise. In particular, we believe the impacts to wildlife habitat and fishery resources will not be significant provided the mitigation measures described in the draft statement are implemented.

We appreciate the opportunity to comment.

Sincerely,

Bruce Blanchard, Director
