H. B. ROBINSON STEAM ELECTRIC PLANT UNIT NO. 2
DOCKET NO. 50-261
LICENSE NO. DPR-23
REVISION OF TECHNICAL SPECIFICATIONS -
DEDICATED SHUTDOWN SYSTEM

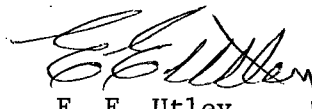

Dear Mr. Varga:

In accordance with the Code of Federal Regulations, Title 10, Part 50.90 and Part 2.101, Carolina Power & Light Company (CP&L) hereby requests a revision to the Technical Specifications for its H. B. Robinson Steam Electric Plant, Unit No. 2. This request reflects changes and additions to the plant as a result of the Dedicated Shutdown System modifications.

Enclosed are replacement pages for the H. B. Robinson Steam Electric Plant, Unit No. 2 Technical Specifications which reflect these revisions. Changes are indicated by the vertical lines in the right-hand margin of the affected pages. It should be noted that the other sections of the specifications cover the operability and surveillance requirements for much of the equipment in the Dedicated Shutdown System; therefore, this request for license amendment addresses only that equipment not covered by other specifications.

Because these modifications and changes were required by your staff, it is CP&L's understanding that no license fee is required. If you have any questions concerning this matter, please contact our staff.

Yours very truly,

E. E. Utley
Executive Vice President
Power Supply and
Engineering & Construction
