DOCKET NO. 50-261
LICENSE NO. DPR-23
REQUEST FOR LICENSE AMENDMENT
RADIOLOGICAL ENVIRONMENTAL TECHNICAL SPECIFICATIONS (RETS)

Dear Mr. Varga:

SUMMARY

In accordance with the Code of Federal Regulations, Title 10, Part 50.90 and Part 2.101, Carolina Power & Light Company (CP&L) hereby requests revisions to the Technical Specifications (TS) for the H. B. Robinson Steam Electric Plant Unit No. 2 (HBR2). These revisions incorporate the Radiological Environmental Technical Specifications (RETS) and the requirements to perform audits of the Emergency Preparedness Program and the Security Plan.

DETAILS

The RETS revisions incorporate the comments of your staff provided in a letter dated June 2, 1980, and provided in meetings with your staff on July 1, 1980 and April 13, 1982. This request reflects the latest guidance available in Draft 6 of NUREG-0472 Revision 3 dated June 2, 1982. This submittal supersedes our submittals of May 31, 1979 and November 10, 1980 in their entirety. In addition, Appendix B, as it now stands, is superseded and should be deleted.

Technical Specifications 6.5.3.2.d.(5) and (6) have been revised to incorporate the requirements for audits as defined in Generic Letter No. 82-17, dated October 1, 1982, and Generic Letter No. 82-23, dated October 30, 1982, respectively.

The affected pages are enclosed for your use. Changes are denoted by vertical bars in the right-hand margin. In that these revisions have been requested by your staff, we have determined that no amendment fee is required.

-2-

In order to allow sufficient time to prepare new procedures and necessary procedural revisions to incorporate the requirements identified in RETS, the Offsite Dose Calculation Manual (ODCM), and the Process Control Program (PCP), CP&L plans to implement these controls and procedures within nine months following approval of the RETS, ODCM, and PCP. Because of the interrelationships of these three documents, they cannot be implemented separately; therefore, the nine-month schedule will begin following your approval of the last of the three documents.

If you have any questions or wish to meet regarding this request, please contact a member of our Nuclear Licensing staff.

Yours very truly,

L. W. Eury
