H. B. ROBINSON STEAM ELECTRIC PLANT, UNIT NO. 2
DOCKET NO. 50-261/LICENSE NO. DPR-23
REQUEST FOR LICENSE AMENDMENT
DEDICATED SHUTDOWN SYSTEM

Dear Mr. Varga:

By letter dated December 2, 1980, Carolina Power & Light Company (CP&L) requested changes to the H. B. Robinson Steam Electric Plant Unit No. 2 (HBR2) Technical Specifications (TS) concerning the dedicated shutdown system. These revisions have not yet been approved or issued by your staff. Since CP&L is planning to make modifications to the system during the current Steam Generator Replacement and Refueling Outage, it is requested that CP&L's December 2, 1980 request for TS amendment be withheld until a supplemental request can be submitted. Carolina Power & Light Company plans to submit a revised request for your review and approval by three months before the end of the current outage.

If you have any questions on this subject, please contact a member of our Nuclear Licensing Staff.

Yours very truly,

A. B. Cutter - Vice President
Nuclear Engineering & Licensing
