AMENDMENT NO. 80 CANCELLATION

Dear Mr. Varga:

By Amendment No. 80 to the Operating License, Carolina Power & Light Company (CP&L) was granted relaxation from certain physical security requirements of 10 CFR 73.55 for the duration of the Steam Generator Repair outage. However, due to the unavoidable acceleration of the commencement of this outage, CP&L believes that implementation of this amendment will not be cost effective at this time and, therefore, does not intend to implement Amendment No. 80.

Carolina Power & Light Company would like to express its gratitude for the efforts put forth by your staff on the review of our request. Had the outage started as had been originally scheduled, we believe that use of this amendment would have produced substantial savings in manhours and costs.

If you have any questions regarding this information, please contact Mr. D. C. Stadler at (919) 836-6739.

Yours very truly,

S. R. Zimmerman
