DOCKET NO. 50-261/LICENSE NO. DPR-23
SUPPLEMENTAL REQUEST FOR LICENSE AMENDMENT
REPORTING REQUIREMENTS OF 10 CFR 50, SECTIONS 50.72 AND 50.73

Dear Mr. Varga:

SUMMARY

Carolina Power & Light Company (CP&L) submitted a request for license amendment by letter dated March 21, 1984 concerning reporting requirements. The NRC provided CP&L with their comments in a telephone conversation based on their review of the amendment request. The purpose of this letter is to incorporate NRC's comments into a supplemental amendment request.

DETAILS

Several requirements for Special Reports were incorporated into the Technical Specifications (TS) as a result of discussions with the NRC. The majority of the changes from CP&L's previous amendment request result from the need to reflect license amendments issued between March 21, 1984 and now. Amendments 78 through 86 have been issued since March 21, 1984. Amendments 83, 84, and 85 included pages which affect reporting requirements. Therefore, the TS pages issued by Amendments 83, 84, and 85 which affected reporting requirements are included in this supplemental request for license amendment. In many cases, no additional changes are being requested. Attachment 1 summarizes the changes between our March 21, 1984 request and this request.

ADMINISTRATIVE

The Company has concluded that a revised significant hazards determination is not required. The determination of no significant hazards included in our March 21, 1984 letter applies to this supplemental request.

Carolina Power & Light Company has determined that no license amendment application fee is required since this is a supplemental request.
