CAROLINA POWER & LIGHT COMPANY  
H. B. ROBINSON STEAM ELECTRIC PLANT  
UPDATED FINAL SAFETY ANALYSIS REPORT - AMENDMENT NO. 5  
INSTRUCTION SHEET

This amendment contains additional or revised technical information and editorial changes in the form of replacement pages for the H. B. Robinson Updated FSAR. Each revised page bears the notation "Amendment No. 5" at the page bottom. Vertical bars with the number "5" beside them have been placed in the margins of revised pages to indicate the location of technical revisions on the page.

Since many H. B. Robinson Updated FSAR pages are printed double-sided, the replacement pages in this amendment may consist of original information on one side of the page and revised information on the other side. Reference to the amendment identification number in the lower right corner of the page will enable the user to determine the amendment status of the page (whether it is original or revised material). Unchanged material located on the reverse side of a revised page will not contain an amendment identification number or amendment bars.

The following page removals and insertions should be made to incorporate Amendment No. 5 into the Updated FSAR:
