REQUEST FOR LICENSE AMENDMENT - FIRE PROTECTION

Dear Mr. Schwencer:

In accordance with the Code of Federal Regulations, Title 10, Part 50.90 and Part 2.101, Carolina Power & Light Company hereby requests a revision to the Operating License for its H. B. Robinson Unit No. 2. The change requested involves a modification to Paragraph 3.E of Facility Operating License DPR-23. The requested revision would change this paragraph to reflect the requirements of supplements issued by the NRC to its February 28, 1978, Safety Evaluation Report (SER). Since any supplements to the SER will be preceded by NRC safety review and evaluation, the requested license amendment itself does not involve any safety issues. A copy of revised Paragraph 3.E is enclosed with revisions indicated by a vertical line in the right-hand margin.

In accordance with 10CFR170.12(c), we have determined that this revision is administrative in nature, and the amendment constitutes one Class II Amendment. Accordingly, our check for \$1,200 is enclosed. Should you have any questions concerning this amendment, please contact our staff.

Yours very truly,

E. E. Utley

E. The licensee may proceed with and is required to complete the modifications identified in Paragraphs 3.1.1 through 3.1.27 of the NRC's Fire Protection Safety Evaluation Report on the H. B. Robinson facility dated February 28, 1978, and supplements to the Safety Evaluation Report. These modifications shall be completed by the dates identified in the Safety Evaluation Report and supplements to the Safety Evaluation Report. In addition, the licensee shall submit the additional information identified in Table 3.2 of this Safety Evaluation Report in accordance with the schedule contained therein. In the event these dates for submittal cannot be met, the licensee shall submit a report explaining the circumstances, together with a revised schedule.
