30-DAY SPECIAL REPORT - OVERPRESSURE PROTECTION

Dear Mr. O'Reilly:

This report is being submitted in accordance with our proposed Overpressure Protection Technical Specifications Paragraph 6.9.3.g. These proposed Technical Specifications were submitted to ONRR on December 22, 1977, and as of yet have not been issued. This report is being submitted to demonstrate our intent to conform to the proposed Technical Specifications, as if they were approved. Attached for your information is a copy of these proposed specifications.

Paragraph 6.9.3.g would require a 30-day special report to be filed upon operation of the Overpressure Protection System, even though no violation of the Appendix G, NDT curve occurred. The date of occurrence of this event was April 13, 1979. See Attachment 1 for the Special Report and Attachment 2 for a copy of the proposed Technical Specifications.

Yours very truly,

H. R. Banks

Manager

Nuclear Generation
