FLOODING CONDITIONS, JUNE 1972

Dear Mr. Davis:

Your letter of June 28, 1972 concerning the effects of any serious flooding conditions during the severe weather conditions experienced over much of the East Coast during June, 1972, was received by this Company on July 3, 1972.

It is reported that the area served by the Carolina Power & Light Company was bypassed by Hurricane Agnes. As a result no unusual flooding conditions were experienced at our H. B. Robinson Plant. Items a, b, and c in your letter, therefore, are all negative and not applicable to the conditions experienced at the H. B. Robinson Plant.

Yours very truly,

E. E. Utley

Manager
