H. B. ROBINSON STEAM ELECTRIC PLANT, UNIT NO. 2  
DOCKET NO. 50-261/LICENSE NO. DPR-23  
REVISION TO LICENSE AMENDMENT  
DELETION OF ORGANIZATION CHARTS

Gentlemen:

By letter dated May 25, 1988, Carolina Power & Light Company (CP&L) requested an amendment to the H. B. Robinson Steam Electric Plant, Unit 2 (HBR2) Technical Specifications (TS) for the deletion of organization charts, using the Westinghouse Owners' Group lead plant approach. However, subsequent discussion with NRC disclosed that the TS change needed to be more specific regarding the designation of two of the management positions. Attached is the revised TS page 6.2-1 to supercede and replace the originally submitted page 6.2-1.

As this revision is not changing the intent of the initial request, the basis of the original request, as well as the significant hazards determination, remain valid.

Please refer questions regarding this matter to Mr. R. W. Prunty at (919) 836-7318.

Yours very truly,

L. I. Loflin  
Manager  
Nuclear Licensing Section
