NUREG-0737 ITEM II.D.1, "RELIEF AND
SAFETY VALVE TEST REQUIREMENT"

Dear Mr. Eisenhut:

NUREG-0737, "Clarification of TMI Action Plan Requirements," Item II.D.1, "Relief and Safety Valve Test Requirement," requires that Carolina Power & Light Company (CP&L) submit a plant-specific report on safety and relief valve qualification by October 1, 1981 for the H. B. Robinson Steam Electric Plant, Unit No. 2. CP&L is a participant in the EPRI PWR Safety and Relief Valve Test Program. This test program, however, is not yet complete. Therefore, CP&L is unable to submit a plant-specific report on the test results by the required date of October 1, 1981. CP&L will continue to closely monitor the EPRI Test Program and will submit the plant-specific report as soon as the test results have been received and reviewed by our staff.

If you have any questions on this subject, please contact our staff.

Yours very truly,

E. E. Utley
