ENVIRONMENTAL QUALIFICATION OF SAFETY-RELATED ELECTRICAL EQUIPMENT

Dear Mr. Eisenhut:

By letter dated August 14, 1981, the NRC proposed holding Carolina Power & Light Company's (CP&L) requests for hearings concerning environmental qualification of safety-related electrical equipment in abeyance until thirty days after NRC action on a pending petition for an extension of time which CP&L, along with other licensees, filed with the Commission.

This will affirm CP&L's concurrence in the course of action proposed in your August 14, 1981 letter. If you have any questions on this subject, please contact our staff.

Yours very truly,

M. A. M. Duff
