IN-SERVICE INSPECTION AND TEST PROGRAM

Dear Mr. Varga:

On March 10, 1981, Carolina Power & Light Company (CP&L) provided you three (3) copies of the revised In-Service Inspection and Test Program (ISI Program) for the H. B. Robinson (HBR) plant. As a result of discussions with your staff, several changes to the March submittal have been identified. CP&L therefore provides three (3) copies of the revised ISI Program which completely replaces our March 10, 1981 submittal.

As stated in our March submittal, the updated ISI Program will be applicable for the second 120-month interval beginning March 7, 1981. CP&L has implemented the new program effective April 1, 1981 which was the beginning of the second quarter of 1981. Plant Technical Specification (TS) requirements which are more conservative than the ISI Program are being followed in lieu of or in addition to the ISI Program requirements.

In addition to the ISI Program submittal, the March 10, 1981 letter stated that the requirements of the component inspection portion of the ISI Program for the first interval would be completed during the fall 1981 refueling outage and the component inspection program for the second interval would be submitted prior to January 1, 1982. Due to several unplanned outages and reduced power operation, the fall 1981 outage has been moved to the spring of 1982; therefore, the component inspection requirement for the first interval will not be completed until approximately June, 1982. Therefore, the second interval component inspection program will be submitted prior to March 1, 1982.

December 31, 1981

Changes to unit Technical Specifications are required as a result of this program due to conflicts between the program and the Technical Specifications. CP&L will provide a request for these changes at a later date. Until such changes are requested and approved, we will continue to follow the requirements of both the program and the Technical Specifications or the most conservative.

If you have any questions, please contact my staff.

Yours very truly,

A handwritten signature in dark ink, appearing to read "P. W. Howe", is written over the typed name.
