PERFORMANCE TESTING ON RELIEF AND SAFETY VALVES

Dear Mr. Varga:

Carolina Power & Light Company (CP&L) has reviewed your letter dated July 5, 1984 concerning performance testing on relief and safety valves for the H. B. Robinson Steam Electric Plant Unit No. 2 (HBR2). Due to the nature of the questions, CP&L has requested our vendor to provide the additional information you requested. Our vendor has received similar requests from several other utilities. As a result, and due to the large amount of information requested from each utility, CP&L will require additional time to submit the responses for HBR2. Allowing for our vendor's schedule, and CP&L's review of the vendor's material, CP&L plans to submit the requested information to you by November 21, 1984.

If you have any questions on this subject, please contact Mr. Stephen D. Floyd at (919) 836-6901.

Yours very truly,

S. R. Zimmerman
