

NEI FFTF Update

FFTF – NRC Meeting
July 24, 2014

Site Specific Meteorology Studies

- Industry is using site / region specific meteorological studies
 - Approximately 47% of site reevaluations
 - Almost all use the same vendor
 - NRC questions
 - Used for both LIP and/or PMP for some evaluations
 - HMR availability played a factor in some cases
 - “Stippled” regions require site specific studies
 - Watershed size varied
