Pearline

PPPO has received concurrence from the DOE Nuclear Energy Oak Ridge Site Office that the 35 cylinders identified in the May 1, 2014 letter from Mr Sullivan are appropriately transferred to DOE per the "Cooperative Agreement." Bert Gawthorp, PPPO Legal, has authorized me to convey to USEC NMC&A that you may now change the title to DOE and enter them into an appropriate DOE Project Number.

Please call if you need further information.
