Subject: Your application for NRC license (Control No. 584428)
Date: Monday, August 04, 2014 8:37:00 AM

Ms. Levine:

I am reviewing your application for NRC license. There are a few items missing from the application and there are few items that are unnecessary and include personal privacy information. Correspondence with the NRC may be made publicly available, therefore the correspondence should not include any personal, proprietary or confidential information. The NRC policy requires that all correspondence with the NRC be signed by the company's senior management representative and not the RSO. The fee that you submitted is not sufficient (Please see 10 CFR 170.31). Please call me at (610) 337-5364 so that I can explain to you the steps you need to take to complete the application. Thank you.
