August 17, 1973

Director of Regulation  
U. S. Atomic Energy Commission  
Washington, D. C. 20545

Gentlemen:

It is my understanding that the Atomic Energy Commission is scheduling a hearing on the environmental impact of the Carolina Power & Light Company nuclear power plant near Hartsville, S.C. This plant is known as the H. B. Robinson Unit Number 2.

As a property owner at this lake, I would like to protest the high water temperatures. Water temperatures last summer and this summer have been so high that it is unpleasant, to say the least; to swim, wade, water ski or in anyway come in contact with the water.

In view of this I would like to be granted a limited appearance at this public hearing. Please let me know when and where it will be held.

Any information you can give me concerning this matter will be greatly appreciated.

Sincerely,

A handwritten signature in cursive script that reads 'Ray M. Clanton'.  
Ray M. Clanton
