Carolina Power &amp; Light Company

August 15, 1975

50-261

Mr. Robert W. Reid, Chief  
Operating Reactors Branch #4  
Division of Reactor Licensing  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555

H. B. ROBINSON UNIT NO. 2  
LICENSE DPR-23  
SECURITY PROGRAM

Dear Mr. Reid:

Our letter of July 9, 1975, Serial NG-75-1045, stated in part that CP&L would accomplish full implementation of the H. B. Robinson Unit No. 2 Security Plan by August 17, 1975. The plan will be implemented by that date with the exception that one item of hardware, which will be utilized in communication with the local Sheriff Department, has not been received.

Carolina Power & Light Company is committed in the Security Plan to have radio communication with the local Sheriff Department. The required receiver, although ordered in April, has not been received. The vendor was contacted on August 14, 1975, and indicated that the receiver has been shipped and should be in our hands shortly. We are confident the receiver will be installed and operating by September 1, 1975. CP&L does have other redundant means of communication with the Darlington County Sheriff Department via the Company microwave system or the dispatching radio system. Both of those systems require indirect contact by going through Company personnel outside the plant and having them phone the Darlington County Sheriff Department. However, the redundant capability in case the local Bell Telephone System is out of order does exist.

Therefore, a temporary waiver on the requirement to have the direct radio link with the Darlington Sheriff Department is requested until September 1, 1975.

Yours very truly,

E. E. Utley  
Vice President  
Bulk Power Supply
