50 - 261

Mr. George Lear, Chief
Operating Reactors Branch #3
Directorate of Licensing
Office of Regulation
U. S. Nuclear Regulatory Commission
Washington, D. C. 20545

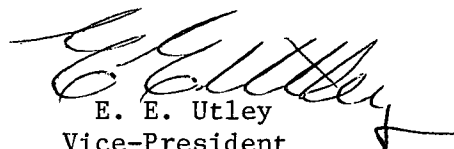

Dear Mr. Lear:

H. B. ROBINSON UNIT NO. 2
LICENSE DPR-23
REEVALUATION OF ECCS COOLING PERFORMANCE

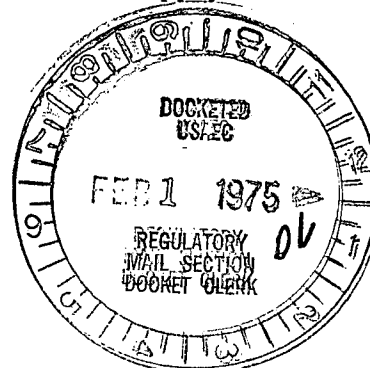

In your letter of December 27, 1974, you requested that Carolina Power & Light Company inform you of the submittal date for the ECCS cooling performance reevaluation required by Paragraph 1 of Section 3 of the Order for Modification of License for the H. B. Robinson Steam Electric Plant Unit No. 2, which was enclosed with your letter. Our NSSS vendor, Westinghouse, has informed us that they will provide a reanalysis of the ECCS performance suitable to meet the requirements of the Order to Carolina Power & Light Company by mid-February. Allowing for our review of the reanalysis and finalization of pertinent Technical Specifications, we expect to submit our reevaluation by March 15, 1975, barring unforeseen delays. We trust this date is suitable for your timely review of our submittal.

Yours very truly,

E. E. Utley
Vice-President
Bulk Power Supply
