Regulatory Docket File

Mr. John F. O'Leary
Directorate of Licensing
Office of Regulation
U. S. Atomic Energy Commission
Washington, D. C. 20545

RE: DOCKET NO. 50-261

Dear Mr. O'Leary:

On March 25, 1974, Mr. W. H. Regan, Jr., Chief, Environmental Projects Branch 4, transmitted to Carolina Power & Light Company the AEC comments on proposed Environmental Technical Specifications for H. B. Robinson Unit 2. Mr. Regan suggested a meeting during the week of May 15, 1974, to discuss those comments and requested that the Company confirm this schedule or provide a suitable date for such a meeting.

A scheduled refueling outage for the H. B. Robinson Unit 2 will begin on or about May 4, 1974. The outage should last approximately six weeks, and manpower requirements could prevent key personnel from attending the requested meeting with your staff. In accordance with recent discussions with Dr. G. L. Dittman of your Staff, the Company suggests a meeting on June 26, 1974. This meeting schedule will allow participation by the necessary CP&L individuals having familiarity with the Environmental Technical Specifications for H. B. Robinson Unit 2.

Yours very truly,

J. A. Jones
Executive Vice President

JAJ/jc
