H. B. ROBINSON UNIT NO. 2
LICENSE DPR-23

POSTULATED PIPE FAILURE OUTSIDE CONTAINMENT

By copy of this letter, Carolina Power & Light Company submits forty copies of a document entitled "Postulated Pipe Failure Analysis Outside of Containment," which outlines the analyses which will be performed and the methods to be employed in determining the effects of pipe failures outside of the Containment Building of the H. B. Robinson Unit No. 2 Plant. This document was referred to in our letter of June 7, 1973, and includes a schedule for completion of the necessary analyses for the piping systems under consideration. As an appendix to this document, we are also submitting forty copies of the Emergency Instructions for the Robinson Plant.

The results of the analyses and evaluations, and any changes to the piping systems to be considered as a result of these analyses, will be forwarded to you as they become available.

Yours very truly,

E. E. Utley
Vice-President
