REACTOR VESSEL MATERIAL SURVEILLANCE PROGRAMS

Dear Mr. Reid:

Your letter of May 18, 1977 requested information on the reactor vessel materials and the associated surveillance specimens. CP&L will respond to your request with as much of this data as is available. The reactor vendor has been contacted to obtain the required information. Due to the volume of requested data and the large number of utilities who must obtain data from the vendor, it will not be possible to supply the data in accordance with your requested schedule. Discussions with the reactor vendor have indicated that an additional 90 days will be required to obtain and submit the requested information.

Yours very truly,

E. E. Utley
Senior Vice President
Power Supply
