Mr. Benard C. Rusche, Director
Office of Nuclear Reactor Regulation
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

50-261
Dear Mr. Rusche:

H. B. ROBINSON UNIT NO. 2
LICENSE NO. DPR-23
PLANT ORGANIZATION CHANGES

On December 17, 1974, Carolina Power & Light Company forwarded a proposed revision to the Technical Specifications for its H. B. Robinson Unit No. 2 Plant regarding changes to the Administrative Controls Section 6.0 of the Specifications. This submittal was made in response to your request of October 22, 1974. We later amended this submittal in the area of the Plant and Company Nuclear Safety Committees by a submittal dated February 3, 1975. We understand that these submittals are still under review by your staff and will be issued at a future date.

As a result of supervisory changes at the Robinson Plant, we wish to further amend the submittals referenced above to reflect our current plant organization. The changes involved the separation of the duties of the Engineering & Quality Assurance Supervisor into two supervisory functions, an Engineering Supervisor and a Quality Assurance Supervisor. This change was effective July 1, 1975, and was made to strengthen the plant organization in performance of the quality assurance function.

Revised pages to our submittals are attached to this letter showing the changes. In addition, the composition of the Plant Nuclear Safety Committee has been modified to include both the Engineering Supervisor and the Quality Assurance Supervisor as members. This change is reflected on pages 6-4 and 6-5 of the proposed Specifications.

9577

September 8, 1975

In accordance with Commission Regulations, this submittal is signed under oath by a duly authorized Officer of the Company.

Yours very truly,

E. E. Utley
Vice-President
Bulk Power Supply

6.3 Facility Staff Qualifications

6.3.1 Each member of the facility staff shall meet or exceed the intent of ANSI N18.1-1971 with regard to the minimum qualifications for comparable positions.

6.4 Training

6.4.1 A retraining and replacement training program for the facility staff shall be maintained under the direction of the Administrative Supervisor and shall meet or exceed the requirements and recommendations of Section 5.5 of ANSI N18.1-1971 and Appendix "A" of 10 CFR Part 55.

6.5 Review and Audit

Organizational units for the review and audit of plant operations shall be constituted and have the responsibilities and authorities outlined below:

6.5.1 Plant Nuclear Safety Committee (PNSC)

6.5.1.1 Purpose

As an effective means for regular review, evaluation, and maintenance of plant operational safety, a Plant Nuclear Safety Committee (PNSC) will be established during the preoperational test period prior to fuel loading of the first unit. The committee will be chaired by the Plant Manager and composed of plant supervisory personnel. The organization of this committee is shown on Figure 6.5-1.

6.5.1.2 Composition

The Plant Nuclear Safety Committee shall be composed of the following:

- (a) Chairman: Plant Manager
- (b) Vice Chairman: Operations Supervisor
- (c) Secretary: Administrative Supervisor
- (d) Engineering Supervisor

- (e) Maintenance Supervisor
- (f) Environmental and Radiation Control Supervisor
- (g) Quality Assurance Supervisor

6.5.1.3 Alternates

Alternate members shall be appointed in writing by the PNSC Chairman to serve on a temporary basis; however, no more than two alternates shall participate in PNSC activities as voting members at any one time.

6.5.1.4 Consultants

Consultants shall be utilized as determined by the PNSC Chairman to provide expert advice to the PNSC.

6.5.1.5 Meeting Frequency

The PNSC shall meet at least once per calendar month and as convened by the PNSC Chairman.

6.5.1.6 Quorum

A quorum of the PNSC shall consist of the Chairman or Vice Chairman plus three members including alternates.

6.5.1.7 Responsibilities

- a) Review of 1) all procedures required by Specification 6.8 and changes thereto, 2) any other proposed procedures or changes thereto as determined by the Plant Manager to affect nuclear safety.
- b) Review of all proposed test and experiments that affect nuclear safety.
- c) Review of all proposed changes to the Technical Specifications.
