RE: H. B. ROBINSON STEAM ELECTRIC PLANT UNIT NO. 2
DOCKET NO. 50-261
OPERATING LICENSE NO. DPR-23
CYCLE 6 OPERATION

Dear Mr. Reid:

This letter is to inform the Commission of Carolina Power & Light Company's schedule for refueling H. B. Robinson Unit 2 for its Cycle 6 operation. At the present time our system planning calls for completion of Cycle 5 operation on or about February 4, 1978. At that time we will begin our refueling outage which is scheduled for approximately 5 weeks.

As your staff was made aware in February 1977, refueling for Cycle 6 will be performed in accordance with the authorization of 10 CFR 50.59(a) since Cycle 6 core operation will involve no unreviewed safety questions and will require no change in the technical specifications of the plant.

In the event that any modifications are made in our schedule, we will keep your staff informed either by telephone or by means of further written notification.

Yours very truly,

B. J. Furr - Manager
