1975 METEOROLOGICAL DATA TRANSMITTAL

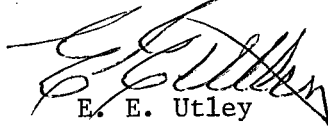

Dear Mr. Schwencer:

In accordance with a verbal request from the NRC Staff on February 24, we are transmitting the 1975 hourly meteorological data to you. This hourly meteorological data represent measurements recorded at the Robinson on-site meteorological station. The data are recorded on magnetic tape following the guidance of the NRC Draft Environmental Standard Review Plan for Meteorology (included in NUREG-0158, Part 1, January, 1977). The format utilized on our tape is in accordance with the standardized format outlined in Mr. D. B. Vassalo's April 22, 1977, letter.

We are forwarding the tape under separate cover to Mr. Don Neighbors. We ask that you please return the meteorology data tape to us (in care of Mr. S. R. Zimmerman) after you have recorded the information.

Please contact us if you have any questions regarding this information.

Yours very truly,

E. E. Utley
Senior Vice President
Power Supply
